

BLOWN OUT

DESIGN MASSIMO CASTAGNA

HENGE

STRUCTURE

Black burnished steel structure.

TOP

6cm thick with H-Piuma finish.

TOP FINISHES

H-Piuma

TECHNICAL DATA

Cm 240x62x25h

CARE AND MAINTENANCE OF WOOD

The woods used for our products are of the highest quality and manufactured with the greatest craftsmanship. As wood is a natural material, when placed in a very dry environment it loses humidity and consequently shrinks. In contrast, in a very humid environment wood acquires humidity, increasing in size. These subtle reactions are not flaws but natural movements of a 'living' product, which expands and contracts as the seasons change. Furthermore, the final moisture content of wood also varies according to use, for which particular care is required. For routine maintenance of wood, use a soft, damp, fluffy cloth, or a microfiber cloth. Stubborn stains cleaning wood and does not scratch. To thoroughly clean even the finest grain, follow the direction of the grain using a neutral pH detergent. Next, rinse with a well wrung out cloth and thoroughly dry all surfaces. It is advisable to use neutral pH products and to always test any product on a small hidden part of the object before using it on the outside. Wooden top are protected with a transparent stain resistant acrylic topcoat that do not require maintenance.
